

# ADIS HEGIC

## FRONTEND DEVELOPER

### Profile

I am a goal-oriented and dedicated front-end developer with a strong work ethic and a passion for delivering results. With experience as a team leader in maintenance, I am used to working under pressure and taking responsibility. I constantly strive to develop my skills and see new challenges as an opportunity to grow and contribute to innovation and success.

### Experience

#### **Novalo Technologies**

**November 2024 – May 2025**

Frontend Developer | Internship

- Responsible for UX/UI and front-end development together with three others, collaborating closely with the back-end team.
- Worked according to Scrum with daily stand-ups and sprint planning.
- Contributed to the development of a car validation website using AI.
- Used technologies such as React, Next.js, TypeScript, Tailwind CSS, and AWS.

#### **GKN Automotive**

**June 2015 – Present**

Automation Electrician | Team Leader

- Working as an automation electrician and team leader in the maintenance department.
- Ensuring that operators receive assistance according to the company's priority list.
- Responsible for keeping the machinery operational, including electrical work, troubleshooting, and programming PLCs (e.g. Siemens, Fanuc) and industrial robots (e.g. ABB).
- Currently on parental leave.

### Education

#### **Frontend Developer**

**EC Utbildning**

August 2023 – June 2025

#### **Electrical & Automation**

**Wijkmanska Gymnasiet**

August 2012 – June 2015
